

# 'Night Before' Dinner & 9th Annual Charity Reception

by Emmanuel Lupé Chief Editor — December 1, 2019 in Emotions, Trending

We return to Miami during its art & design extravaganza to celebrate our **9th annual charity superyacht reception** in partnership with **Vontobel**, the globally operating financial expert with Swiss roots that specializes in wealth management, active asset management & investment solutions.

Following an incredible debut during our Monaco F1 weekend, & several exclusive curated dinners in Monaco & London, Axiom Space joins us aboard in Miami for the first time, in addition to co-hosting an exclusive 'night before' (U)HNW dinner.

Axiom space station

The Houston-based private company, led by a team with multiple decades of experience as industry leaders in human spaceflight – that includes NASA’s former ISS program manager for 10 years, plus a 4-time astronaut with most logged ‘spacewalk’ hours – is expanding human access to low Earth orbit & building the world’s first internationally available commercial space station, to succeed the ISS in the near future.

10-day private astronaut missions will see Space Tourists train alongside professional astronauts with a program designed with optimal preparation & minimal schedule disruption in mind. For those for whom the sky has never been the limit!

Providing a stunning setting for the evening’s reception is **163ft / 50m M/Y MISS MONEYPENNY V**, currently for sale through Burgess Yachts. Built in 2012 and fresh from a 2019 refit, the Mangusta 165 series boasts a sleek interior design by Stefano Righini, with accommodation for nine guests including a full beam master with separate owner’s office. Further features include a gym, media room, Jacuzzi, Seakeeper stabilizers, plus triple MTU 4000 engines capable of cruising 27kn. A modest 1.6m (5.3ft) draft allows her to explore reefs, lagoons & shallows that are normally off-limits to many large yachts.

We are delighted to welcome YachtAid Global (YAG) aboard as a new charity partner. When natural disaster strikes – as witnessed with the catastrophic Hurricane Dorian – YAG coordinates the acquisition & delivery of humanitarian aid to impacted coastal communities, working with a global network of volunteers, including superyachts, their captains & crew, vetted NGOs & disaster relief experts. “Changing the World without Changing Course”.

A silent auction of pieces from Gallery 211 in Miami, plus photographs taken & donated by YAG yacht Captains, along with other collectible items & onboard pledges, will 100% benefit YAG. You can also [donate directly here](#).
