

SUPERYACHT EVENTS

UNIQUE EXPERIENCES

CONNECTING THE WORLD'S MOST INTERESTING PEOPLE

SEASON'S GREETINGS

As this tumultuous year comes to a close, we send our very best wishes to all of you for a healthy & peaceful transition into 2021.

As is traditional, the My Yacht Group team is in St. Bart's &, while an official yacht reception is not possible in these challenging times, we continue "connecting the world's most interesting people".

For the first time Comd. Michael Lopez-Alegría is on the island. A veteran of 3 Space Shuttle missions & 1 Soyuz mission to the International Space Station, with 257 days in space & holding the US record for most spacewalk hours - 67! - this US Hall of Fame astronaut brings with him a unique vision of our planet & the future of humanity.

While leading the development of Axiom Station, that will eventually replace the ISS, in early 2022 he will launch for a 5th time, aboard Ax-1, taking 3 private astronauts to the ISS for a 10-day mission, a first in human spaceflight.

We very much look forward to safely welcoming you aboard one of our 2021 scheduled superyacht events, including:

Monaco ePrix: May 8
Monaco Grand Prix Weekend: May 20-23
Monterey Motoring Weekend: Aug 13-15
Monaco Yacht Show: Sep 22-25
Art Basel Miami Beach: Dec 2-5
St. Bart's: Dec 27-31
With more to be announced.

Until then, stay negative & be positive, dear friends!
