We are delighted to once again feature YachtAid Global as our chosen charity partner. [YAG](#) provides humanitarian aid, conservation & disaster response leadership, with work encompassing global programs, logistics management & consultation for superyachts that want to contribute to the world around them.

On the brink of recovery from 2015 cyclone Pam, a volcanic eruption and an earthquake, the people of Vanuatu are once again in need of all of the basic elements of survival.

YAG's initiatives engage the yachting community's generosity, helping yacht owners, crews, & industry-related companies mobilize their unique assets, expanding their philanthropic footprint while helping to save lives, alleviate suffering, improve the planet, & build stronger coastal communities.
