## ROCKETSHIPS & SUPERYACHTS

We returned to Miami during the world-famous art week to host another 'Night Before' Investor Dinner, plus our 12th annual charity superyacht reception in conjunction with our private Swiss bank partner & [Radian Aerospace](#) aboard the stunning [M/Y ROMEO FOXTROT](#) from Hargrave Superyacht Division.

The two evenings welcomed a carefully-curated guestlist of U.S. & international (U)HNW investors, superyacht & private jet owners, art collectors, automotive collectors, artists, philanthropists, & more. Scroll down for images.

# RADIAN

## AEROSPACE

[Radian Aerospace](#) is building the world's first truly reusable orbital aerospace vehicle. Radian One is the world's first crewed, single-stage to orbit vehicle with runway-like takeoff & landing & aircraft-like configuration that requires far less infrastructure than vertical launch systems & can be reflown within 48 hours.

Radian's system makes spaceflight affordable & routine, expanding access to space & unlocking the next generation of missions beneficial to humanity - such as scientific research, in-space manufacturing, & terrestrial observation.

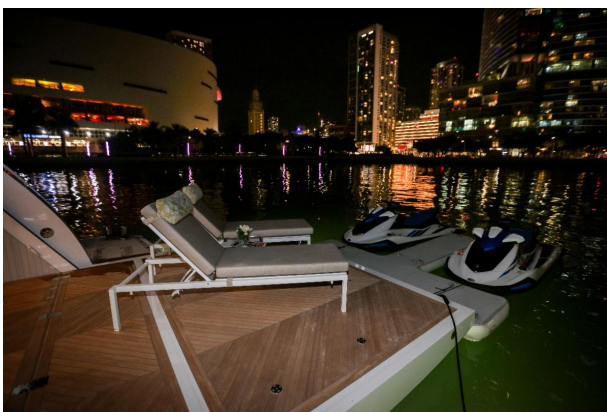

We are delighted to once again shine the spotlight on YachtAid Global as our chosen charity partner. **YAG** provides humanitarian aid, conservation & disaster response leadership, with work encompassing global programs, logistics management & consultation for superyachts that want to contribute to the world around them.

YAG's initiatives engage the yachting community's generosity, helping yacht owners, crews, & industry-related companies mobilize their unique assets, expanding their philanthropic footprint while helping to save lives, alleviate suffering, improve the planet, & build stronger coastal communities.
