## ART + SCIENCE + SUPERYACHTS

We returned to Miami during the infamous Art Week to host another 'Night Before' Investor Dinner, followed by an incredible reception aboard the totally unique research vessel, Gene Chaser, in conjunction with [4 Catalyzer](#), & celebrating 13 years with our private Swiss bank partner!

The two evenings welcomed a carefully-curated guestlist of U.S. & international (U)HNWI, space tech, biotech & fintech investors, superyacht, supercar, & private jet owners, art collectors, medical visionaries, & more.

R/V Gene Chaser once again provided an unrivaled setting on an extremely chilly Miami night: where else can you sip [Whispering Angel](#) or custom [Enchanted Rock](#) vodka cocktails, admire original works from emerging artists, marvel at aerial performances on the yacht's crane, be serenaded by live sax, mingle with extraordinary guests, & get a [brain](#) or [retina](#) scan, too?!
